

1 Now we're continuing, it's number eight in "Who Is This Melchisedec?" Preached by Bro. Branham and in this message Bro. Branham showed us that the principle utilized by God wherein He Himself came down as man amongst men is the same way in which we came down, and come down, though the order is not perfect chronologically. We'll look at that in a little minute or two. The order is not chronologically perfect with the order that God Himself came which you'll notice the bypassing of the Word body, the Spirit body, the theophany, which ever you want to call it.

Now to give us insight, he started with God first taking the human form of a priest. It wasn't a true man as far as we know, not flesh and blood as we know it, couldn't have been. It was a theophany but it was the form of a man of the human form of a priest and then forming Himself into in the flesh--the Lord Jesus Christ. He said,

[68]"He didn't appear as Melchisedec anymore, He came as Jesus Christ."

2 So, we're going to go to the drawing board to see this and see what we can do with what we have in mind here. I'll get some proper pencils. Now, we go back to the very beginning where the Lord was just all by Himself, God was all by Himself. We'll put that green up here. [1] And then Bro. Branham mentions that, "God begin to manifest Himself, to come forth," to a degree." And we'll just put this over here. [2] Now this shouldn't be blue but all we've got here... I can't draw amber, and so we'll put this in over here as the Logos, manifestation coming from God.

Now, I want to read to you from Questions and Answers in Genesis what Bro. Branham brought and what you do when you hear this, you just simply believe it because we're into a very, very difficult doctrine here of the Godhead. The simplistic doctrine is that there is one God, He is Spirit and He had a Son. But all that was said about God manifesting and having a Son is where the problem comes, the differentiation. I'm not going to try to do it as this point, now.

[22] He was in other words, Adam, the first man in the lower creations of God. He's talking about man here. So we'll read.

[21] Now, if God created man in His own image and His Own likeness. What kind of a man did He create? And the answer is, A spirit man. See? Now if you'll notice, after He had made all creation, and He created a spirit man, and reading close of this now to the one that asked the question, we find this, that God gave dominion of the cattle and the fishes and everything to the man. But, in His making up there, He made man in His own image to lead the cattle, lead the beasts of the field, just like the Holy Spirit leads the believer today. See?

[22] He was in other words, Adam the first man in the lower creations of God. The first creation was God Himself.

3 Now I don't think he means by that, that God was created but he's putting the order of the cosmos of God, and the creation of God and God began of course to create Himself into human form, into a form which He did first. He could have the double meaning here that God was first,

there was nothing beside Him, and then He began to create Himself. Bring forth something which would be, as Bro. Branham said, The veil," which according to him, "hid and yet revealed. And that's exactly what the Bible teaches. There is nothing that has been hidden except that it might be revealed." In other words, God's principle holds true. Bro. Branham didn't know one thing about that verse of Scripture in a more modern English form but he sure hit it on the head.

[22] The first creation was God Himself; then out of God came the Logos which was the Son of God. So we have up here, [2] notice he said, the Logos was the Son of God.

4 So when you talk about the Son of God, you've got to go all the way back here [2] whether you like it or not. Now, there's no mention in the Old Testament, except in one place about God having a Son and that's in the book of Proverbs. "Can you name His Son?" To my knowledge there's no place. It does say though, "Thou art forever a priest after the order of Melchisedec." So you have an understanding of the prophecies concerning what we understand to be way down here, [5] four thousand years later at least, down here [5] in Jesus, the Christ. And that simply means the Messiah, the anointed One. Okay.

[22] The first creation was God Himself; then out of God came the Logos. There you are right there [1] and there you are right there. [2] which was the Son of God.

5 Okay? We'll put it down, Son of God because that's what It is. Now remember when you deal with Spirit of God, Son of God, let's just stop right here and go to the book of Romans which Bro. Branham went to when he talked about Jesus Christ coming back as the Holy Spirit. Now remember that is exactly what the Bible says. In Eph 4:9-10, he said, "The One that came down [5] and went into Hades is the One that went up, is the One that came down." Understand what I'm saying? Don't try to figure it, just say, "Sure, I see that because that's what the Bible says." In other words, when He came back as the Holy Ghost it's the same One that went down into the ground. Now you say, "Well that's true." Now don't figure it, there's many things you and I, we may figure but we may not figure too. But that's the Bible. That's Ephesians the 4th chapter. Now in Romans here, the 1st chapter, it says here, the 3rd verse.

(3) Concerning Jesus Christ our Lord, (That's His Son, Jesus Christ, the Son of God, our Lord. Now notice what it says there.) His son, Jesus Christ our Lord.

6 Now He wasn't the Lord of the people really until He came down in this form [5] and associated Himself with the people because now you've got literally, since God is an object of worship, there is nobody who cannot worship Jesus Christ. So that puts Him in the category of God but it doesn't put Him here. [2] Bro. Branham said, "The difference between Jesus Christ and God was one had a beginning." So there again, don't try to figure it. Just say, "Amen. That's the way it is." You know, it's the same as punching a light switch on the wall. Just punch it and see what happens. In other words, just believe this and let it go.

(4) Declared to be the Son of God with power, according to the spirit of holiness, by the resurrection from the dead. (Not previously but from the dead.)

So now God has given us His Son in the form of the Holy Ghost. Right? Prophet said so. Now don't try to figure it. Don't try to figure it, just believe it. Up here [1] then, to here. [2] Logos, the Son of God. And remember Bro. Branham tells us, which every student will tell you, Jesus [5] did not identify Himself as the Son of God. [2] He admitted that He was but He identified Himself as the Son of man. [5] See? So all right, we got that far. Okay.

[22] ...The first creation was God Himself then out of God came the Logos, which was the Son of God, then out of the Logos, which was the Word... came forth the man.

7 Okay, we won't make him such pretty colors, put a little black down here. Out of here [6] comes forth man. Just think it over. Don't try to figure it, say, "That's the way it is." Now I'm not your teacher, the Holy Ghost is through Bro. Branham. I'm just trying to help you a little bit here. When you go and sit under a scientist who has been noted for his ability to prove his case and thereby knows what he is saying, you listen attentively, respectfully and credulously, you believe that person. All right? Notice, here, [1] to here, [2] now here.[6] That's what he said right?

[23] Oh, now watch. I've got a beautiful picture in my mind now if you can take a little trip with me. I believe I've talked on it before, but to get to this place where you'll be sure to see it. He's going to say it again. Now, let's take a little trip and go back a little while. Now don't think about how hot it is, let's get our minds right on what we're going to talk about and think now. So don't think if you're cold how cold it is and above all don't think how hard this is. See? What if it is tough? You've got good teeth, just grab a hold of it, chew it. Okay?

[24] Now, let's go back about a hundred million years before there ever was a star, moon, or anything in the world. That's a fair piece to go back. He could say trillions and be on the dot too. Now there was a time when there wasn't anything here, [1] it was just all forever [1f] and Eternity. [1e]

8 So, all around here, [1] because of in here, there's forever---[1f] we better put eternity [1e] first. I think he put forever and eternity first because we're used to forever which is a designated number of ages, or an undesignated number of ages, until God calls a halt. It has a start and a beginning but eternity always was. So you understand what we're saying here. Let's cut it from eternity [1e] and forever.[1f]

Now why do we say, "And forever?" Because within eternity, within God, [1] is Zoe [1z] which is how God begins doing all this. [2] This is a form of Zoe whether you want to believe it or not, although Zoe is really out here. Okay? Now we've talked on this plenty.

[24]Now there was a time when there wasn't anything here, just forever and eternity and all of ever and eternity was God. He was there in the beginning.

So therefore, all though I've got this on the outside,[1e -- 1f on the outside of the God circle] it's really on the inside but He can put it outside. Well just like you've got words on your inside and you speak words out. See? Okay, let's...he was in the beginning.

[25] Now, let's go stand on the edge of this banister and look over and see these things happen.

[26] Now, "No man has seen the Father at any time." No man can see God in bodily form because God is not in a body form. God is a Spirit.

9 Now that's speaking of the essentiality of God Himself. Just God period. Never mind talking about this [1] now, where God did something about what was within Him so that you, if you would've of been there and fortunately of the composition that allowed you to see something, you would see it. We are not of the composition to see this [2] but we can see this [6] and we can see this. [5] You're not of the composition. You could have a vision, God allowed it, and there'd be something in

there, strike you where you could apprehend some thought maybe; but no, you can't see God period.

He's a spirit. All right. "No man has seen the Father, but the only begotten of the Father that's Jesus Christ the Lord, hath thoroughly declared Him."

10 Which means, shown by his action and his words, his living and all, the whole composite. You see God as much as you need to see God, or as far as God is going to let you see. That right there [5] is the visible God whether you admit it or not. But it was Jesus Christ [5] that did it on the grounds not of the flesh but what lay within the flesh and demonstrated through the flesh. Ever seen a beautiful woman? Oh boy, you think you've got the world by the tail. Get a beautiful woman, turns to be a bag of sour beans. I don't think there's anything much worse than sour beans. Do you? Yeesh! See what was inside starts coming out. So you see, you don't worry about that figure. They couldn't see Him. God was veiled in His temple [5] but everything God wanted to show He could manifest through the temple. And as every temple block had to be perfectly right, and to be perfectly resonant to manifest God, this One here [5] was perfectly God in flesh period. Marvellous, and we're going to get there too in our own little sphere.

[27] Now, but notice now, there's nothing there up there [1] at that time. There's just space. There's no light, there's no dark, there's no anything. No nothing he says, that's good. It just seems nothing. But in there is a great spiritual Being, Jehovah God.

11 Known originally as 'el', 'ela', or 'el ela', the Eternal One, the Strong One, bound by an oath. In other words, God and His Word, God and His thoughts--look out because that's all that's needed. That strong One speaks of Omnipotence and the, bound by an oath speaks of His Word. That's why Bro. Branham always used the Rhema and the Logos interchangeable and so does the Bible, and don't you get misled by these birds running around that think they know something. If you don't know who I mean by now you've been under four feet of dirt for the last four years and don't even know it. I doubt that.

[27] ...There was nothing there [1] but Jehovah God, Who covered all space of all places at all times. He was from everlasting unto everlasting. He's the beginning of creation. [1b] And He's the beginner of creation. That's God. Can't see nothing and can't hear nothing. Not move of an Atom in the air, nothing, no air, not anything, and yet God was there. And He could be right here in the form of the Pillar of Fire and nobody could see Him. He's somewhere--you bet, He hasn't left the church. That was God. (Now let's watch a few minutes...) No man has seen That, now, That's the Father. That's God, the Father.

[28] Now notice, That after a little while I begin to see a little sacred light begin to form like a little halo or something and you could see it only by spiritual eyes.

12 Because that's a theophany. It can appear and disappear. You wouldn't know it anyway...what do you mean appear and disappear? We can't see it in the first place. But it can make itself visible. Like you know, when Jesus came back after the resurrection, He could appear and disappear. He didn't do that before. You say, "Well He did too. They tried to get a hold of Him." Oh no. He just blinded their eyes and just snuck around. Wasn't Him disappearing. No, He wasn't in that form right here. [5] This form here [2] is different from this form here. [5] That form [2] can't bleed, this form [5] does bleed. This form [3] doesn't have real flesh and bones although it can sure look like it. This one [5] does have because they grown in a womb. See?

Okay, "See with your spiritual eyes...Little sacred halo." Now, what we could do here is sort of show this something like this here, you know, little dots around here. [2h] I should have some artist up here making an aura. All right.

[29] But look now, while we're looking, the whole church now. We're standing on a great big banister, watching what God's doing. And we'll get right down here to this question here and you'll see how he brings it in. "Let's make man in our image" and so on.

[30] Now, no one has seen God. And now, the next thing we begin to see, by eyes of supernatural looking, we see a little white Light forming out there. What is that? That's what was called by bible readers, "Logos," or "the anointed," or "the anointing." That's right. Or as I was going to say, the part of God began to develop into something so human beings could have some type of an idea of what it was.

13 So a part of God, now, we listen carefully to Bro. Branham's language. He says, a part of God. In other words, the question has always come; was Heaven [1] emptied when God took on the form of Jesus Christ? [5] Bro. Branham always seemed to indicate in his preaching that God Himself, period, everything that was here, [1] came in there. [5] I can't honestly tell you that that was one hundred percent what he had in his mind though I think it was.

Now I've quoted you before without the exact words and I was very remiss because I was so sick at the time I didn't take them down from a friend of mine, where Bro. Branham says concerning the same thing. There is a part of God that never ever changes or ever moves in the sense of what we speak of, this anointing that came out of here, [2] veiled in a Pillar of Fire, manifested in here, [5] came down here [2p] at Pentecost and divided Himself. I've always spoken of that as the sperm, [2s] giving life to the female counterpart which would be you and me. Don't ever believe that the Holy Ghost is female--It's male. There's teaching going around about that--hogwash. Bro. Branham said, "It's male." You don't have to chew your cabbage twice -- you know -- to prove you're a sheep.

14 Okay. It's then like Father, here [1f] the great cloud. Father. Here's the entire cloud let's say, or, He's even part. I don't care, pure Holy Ghost at Pentecost coming down here. [2s] See? You call germatizing, quickening, and the quickening is, well, I'll just say what it is really, I might'nt use it later on again. The quickening power really is the energizing to you as an individual who has no memory of this, [1a] no memory of this, you're brought down here [2p] and then you're quickened by the Holy Ghost to the complete mentality, wisdom, and understanding of God, the Word, in your order down here [2p] because you always were a part of what's up here. [1a] But you see, you didn't have the chance to go into this area here [4] which would give you the memory and all those things necessary. Okay.

[30] ...The part of God began to develop into something so human beings could have some type of idea what it was. A little Light moving. [2] That was the Word of God.

15 See? What was it then? The Word had to be literally what lay in here [1] coming into manifestation. So that [2] has to be God. That's why if you try to make Jesus [5] the Logos [2] you get into three gods. Now I maybe shouldn't have said that but Bro. Branham said it and that's the tough part right there. That's one of the tough ones because right now you've got like a cloning. You think maybe for... it was an accident, the twentieth century has a revelation by the use of languages that no other generation had. Did God clone? Good question, just let it sit. I'm asking questions here, I don't have all the answers but we study this together, that's the beauty of it.

[31] Now, God gave Himself birth to this Son.

Is he saying, God gave Himself in birth to this Son, or is he saying, God Himself gave birth to this Son? Now I've no punctuation, no way to know. So I would say this, God Himself did it because there's nobody else there. [1] And at the same time God was giving Himself birth in a limited sense because birth is a perpetuation of species. Right? So you've got a limited sense in the one and a more dynamic confirming sense in the first one--it was God Himself who did it, which was before there was even an atom. So this person here [2] is not made of atoms. Got to be solid God. Well you say, "Lights not necessarily made of atoms. It's made of energy." I won't argue anything. I'm just saying that's what's said. I'm not a scientist and I don't pretend to mix science with it. I wouldn't be smart enough anyway see?

[31] ...There's no air, there's no atom. Now watch, Bro. Branham quoting from John. And Jesus said in the New Testament, this One here [5] said, "Glorify me, Father, with the glory that we had, Or I had with You, which is we had. before the foundation of the world."

16 That's up here. [2] Now he said, "I came from God I go to God." This [5] did not come from God per se, though it did come from God because this [2] came from God, before there's atoms or anything else. This is supernatural. A hundred percent something which nobody can figure, but there it is. No atoms. After this will come the atoms. Down here [5] will come the atoms. And we will get changed in our atoms. And when we leave our atoms we go back to our own theophany [4] which we'll put up here later on.

We'll never get to it this morning I can see that. What's the difference? Long as you enjoy yourselves and you get some light. Just see, it'll trickle in and God will...every word has power especially for our hour that the prophet taught us. Whether we understand perfectly is not the thing. It will come together because we believe it. And it will work in us because that's the secret of this whole ministry of Bro. Branham's is to bring us into a place of immortality under the Seventh Seal. The Bride has everything she needs to put her in a Rapture so therefore she has everything to make her immortal. Some of you kids sitting here are going to be immortal. I'm happy for you. I think I'm going to turn into a pile of compost the way I'm going, which...it's all right. Glorified compost by the grace of God. See?

[31] ...Now, He said, "Glorify me," [2] before there was ever an atom.

[32] Now in Saint John one, "In the beginning was the Word,[2] and the Word was God...The Word was made flesh and dwelt among us." Now he's combining 1:14 with those. God unfolding Himself, down to a human being. [5]

17 Now that's what God was doing when He did this. [2] When God sprang out of His own unique, I can't use the word separateness because there's nothing to separate. So when God sprang out of His own, [1] oneness, began moving, right here, [2] coming down to here, [6] so that He could come here, [5] and bring redemption. See? Now God unfolding Himself. How did God unfold Himself? He unfolded Himself with the understanding in His own mind, it would be with His own children. That's what you're looking at. And the parent must always identify the child the child cannot identify the parent. Well you say, "I don't know about that. You take the penguins and little babies know right away their mothers." Well mother has some kind of a smell or something so she's a source of identification before the chick comes along.

So you see what we're looking at here? We're looking at the fact then. God begins to identify

Himself and He will only identify Himself with what He makes to be identified. It's got to be His offspring. You see it in nature. Baby calf runs to his mother. You know really, except for a few oddities like dogs and cats and something like that, and you know, some aren't too high up, most babies will be nudged away by the mother. Say, "Get out of here brat. You belong to somebody else." That's why God being El Shaddai, the Breasted One, do you think God's going to let the devil's crowd feed on Him? Come on, they can no more get this Word than a hog can go ahead and you know, stand up and play a fiddle. Fact I'd bet on the hog if you want to know the truth. I had to put that in there because it's the truth. You know let's face it, the other is completely impossible my brother/sister. No way. Now,

[31] ... God unfolding Himself. See? God unfolding is God revealing Himself. Now watch how He did it.

[33] Now, back there, [2h] when that little halo comes. First came. Now we can't see anything yet, but just with eyes supernatural we see a halo standing there. [2] Now, that's the Son of God, the Logos. Now that's what he said. See? Let's keep reading. Now I can see Him playing around like a little child before the Father's door with all Eternities. [See 2lc in diagram drawings #6] See? And now, then in this imaginary makeup He begins to think of what things would be, and I can hear Him say, "Let there be light."

18 Now you say, "Well Bro. Branham's just imagining this so there's really no Scripture and truth to this." [2] There isn't? You kidding yourself? Then why is he using Scripture and calling it imaginary. He's not a prophet of God, he's a hoax. He's just telling you that you sit back and imagine you were there but what's going on is not imaginary. But you've got to imagine it all because you ain't there and if you were, it wouldn't do you any good.

Now the word imagine is a very strong word. In the original Greek it means 'reasons'. Casting down imaginations, reasoning. So he's saying, "Let's reason this out and we're going to have to go a little beyond the processes of true reasons. We've got to enter into a place of let's pretend we were there and let us be seeing what we would see if we were there but we're not there but this is as close as you're going to get." See? All right, now that's my understanding. You do what you want. See? I'm just up here talking to myself. You listen in if you want. Now,

[33] ...Now in this imaginary make up He began to think of the things that would be, and I can hear Him say, "Let there be light."

19 Now, out of this here [1] now you come a word and He said, "Let there be light." [2] You're getting into the picture how God created all things by Christ Jesus. Not the flesh here, [5] not even that halo of light [2h] - it's what was in it. That's my understanding. See?

[31] ..."Let there be light." [2]

[34] And when He did, an atom burst and the sun came into existence. She whirled for hundreds of millions of years, forming clinkers, and burning, and forming like it is today; still burning, still breaking atoms. If the atomic bomb would ever let loose the atomic chain would take this earth like the sun yonder just bursting and blowing it apart. If you would stand yonder on another planet and look off at this, it would look like another sun where the atoms were a burning, this earth, if the chain were ever to get loose, it would just start whirling and turning, burning. Millions and millions of miles reach those big flames of billions of Fahrenheit of the heat that goes off the sun.

[35] Now, He made the sun. And then, the first thing you know a big clinker fell off... just

staggered on, spewed down below somewhere. Now then this Logos here, [2] now the Son of God, now watch it he never changes the name. Now this Logos here, the Son of God is watching it, He let's it fall a hundred million years then He stops it. Then another flies off, He let's it, flies off, falls a million years then He stops it. Now we're watching what's coming into existence. See? Something now has got to be there which wasn't there before and how it's changed from one form to another.

[36] Now, He's got something in His mind. What's He doing? He's writing His first Bible. The first Bible that man ever looked for was to the stars. He looked to the Bible in the stars, the Zodiac. It's perfect, it dovetailed with this Bible here. The one right here on the desk. It starts off, with first the sign, the first sign of the Zodiac is a virgin. Is that right? The last sign of the Zodiac is Leo the Lion. That's the first coming of Jesus who came through a virgin; the second, He comes as a Lion, the tribe of Juda. See? Now he's talking about the flesh here [5] because He first came up here. [2] But he's talking now of creation and what was done. Okay. He comes from the virgin, the next is the lion. Now He puts all the things in the sky placed out the way He wants it. All meteors, pieces of earth, sun etc. hanging there.

[37] Now, when science goes to looking for those missiles that fall, that doesn't disprove God, that just proves it to me. See, that just makes it more real. Now notice, all these missiles hanging out there away from the hot sun, and going through the air because they've collected. And the first thing you know, it began as an iceberg. What he's saying there I image he's talking about comets and things.

[38] Now, that was this earth coming into existence, just a big old piece of cinder flew off yonder. Down beneath it now, is nothing but a turning, burning volcano completely, they erupt and some of them are volcanic. The science claims that this world, the crust of it, we live on it, like the peeling of an apple. Now it's about 25,000 miles around, 8,000 miles across. And think of it, in there is this great big burning volcano in the middle.

[39] And two thirds of the earth, better than two thirds, is in water; one third of it's land, about one third. And just look at this crust we're living on. It's full of dangerous explosives.

20 "Now look at the crust itself," he said, there's a volcano inside and on the crust there's gas, gasoline, oil, there's sulfur, there's everything in there that can just blow you higher than a kite. You get enough sulfur and water joining, you could rip, that's where they say could rip the whole coast of California apart. See? Just all it needs is to get in there, water to get in there. You just need certain things to happen and man she's gone.

[39] ...What's the formula of water? Which is two thirds of the earth. Two parts hydrogen and one of oxygen. They're explosives--that's right. Oxygen, man, that's burn, that'll really burn you.

[40] There's enough electricity in every room to separate the heat from the cold, and it'll make enough electricity to burst the room. You can put enough atoms in a golf ball to blow New York off the face of the earth. And then man, sitting on a pot of hell, hits himself in the chest, defies God's Word, and says, "There's no such place as hell." You're sitting on a big pot of it everyday. And while you're here you're sitting on it, and hell is just beneath you. The Bible said, "Hell is the move beneath." That's what the Bible teaches you.

[41] And now notice, but now, that was the first thing found, when Jesus...Now watch the little halo yonder. Now I see It move out to this earth and get over the top of it and begin to move it over here close to the sun. It's nothing but a big ball of ice and when it begins to get melting, then great big glaciers begin to cut through up in the northlands and come down. And then it did, it cut Kansas and Texas and all those places out, and went to the Gulf of Mexico. And the first thing you know, the

whole thing was covered with water.

21 Now, what you're talking about here then is Bro. Branham is saying, before God did anything He had to move into a place Himself of some type of something that approximated material. So the light came out, which was already in there, [1] and from that [2] comes all of the other creations. So God created all things by Christ Jesus, because without Him coming here [2] He could not have done the rest, He would not have done. So you see what he's telling you how He's going to get down here [6] to us.

[42] Now, we get to Genesis 1 we get the Bible now, and out of our picture, the Bible. Genesis 1. "The world was without form, and void; and water was upon the face of the deep. Well darkness was upon the face of the deep, And the Spirit of God moved upon the face of the waters. Then he said, "The Spirit of God moved upon the waters." Now, He separated the water, brought up the hills, the lands and so forth; dried it off. Vegetation and everything else, He made it. And He made the moon. Set the boundaries of the seas so it couldn't pass.

[43] He got all these things together and made...everything. Made all other things on it, animal life, bird life, bees, monkeys, what ever. Put it on here on earth. Then he asked the question like a question asked. "Let us," (Who? Father, Son.) "Make man in our own image."

22 "Let us"; plural. Why not? Because you know what? He had evidently run out of the first phase of exactly what He wanted. Which is as Bro. Branham said, Hey, God before He ever made a fish with a fin, had the water to swim already. So God would have everything ready before there could ever be something said about, "Let us make man in our image."

So, we could see phase number one through Christ Jesus--all things created. Then does God stop and say, "Now, there's been a good job done in this [2] manner so now I'm going to go ahead and I'll just block you out," take you back here maybe, [1a] so to speak. Whatever He wanted to do, that's His business, "and I'll go on my own." No. Now, "Let us make man in our own image." Before it was, "Let us do all this here." [5] Now it's, "Let us make man in our own image." Right? That's how it's going. Okay.

[44] Now, if a man was made something like that little sacred Light yonder, or something like that, it could not be seen because that's a spiritual being. He manifested or unfolded Himself a little more to make a trinity...

23 Really a triunity, it's not the word trinity, it's not the right word. Although it's a good enough...it's a right word but if you want to get down to the definitive expression, my understanding is and Bro. Branham I know would agree, it's tri-unity. Like we are a tri-unity yet we're a trinity. In other words, we've got like a composite. We're one person. Call it a trinity and notice it's going to offices, not people, of Himself. By Father, by Son, and by Holy Ghost constituting offices.

[44] ...And here was God, unfolded Himself now down into, "Let us make man," which was His Son, an offspring from Himself, "man in our own image." He was a supernatural being. "Let him have dominion over the cattle of the field," and so forth. That's how you're supernatural.

[45] Now the man led the cattle and everything, just like the Holy Ghost Spirit leads the real, true believer today. The voice of man could speak and say, "Call the cattle this way, call the sheep to this pasture, call the fishes to this water." See, he had dominion, everything obeyed him.

[46] But then there was no man to till the soil until Genesis two.

24 Now, if you want to know the exact truth then, man though himself created still in the sixth day, his original creation was in the meat and heart of the true original. Making a body is literally a step down--literally a step down. You say, "Sure it is because that's where all the problems came in." See? Now,

[44] ... "Let him have dominion."

[45] ... Now, everything obeyed him.

[46] There's no man to till the soil until Genesis two. "And then God formed man out of the dust of the earth."

25 God made the flesh of man from the chemicals and everything else that He needed to put the man in. Now science goes crazy. Science when they find protein they think that protein will bring the life. That's nuts! God could have pure protein 680 trillion light years of space--it'd just be protein. That's all. Again it's a picture of before there's a fish with a fin, there's got to be water. So before there's a man with a body, there's got to be protein and the rest of the stuff, minerals and all the other stuff. So God had it here and He did it. He formed man [6] out of the dust of the earth and put therein this supernatural spirit. What He made here [2] now up at this time just subject to the flesh, He now wraps it in here [6] under the sixth day.

[47] Now, He was lying there. I can have many pictures of what He was doing. Lying there, this, that and the other thing. Now he said, Let's take it this way, see Him standing like a tree. God had made him. He was dead as could be; his toes like the roots sticking in the ground. And God said, "Let there be," or breathed in the breath of life into him, and he jumped, he came to himself. Breathed the breath of life into him, and he became a living soul. Now, he begins to move and move on.

26 Now what's he talking about? You think when he was up in this other form [2] in the Spirit of God he was a spirit man that he couldn't move? Certainly he could move. What's he into now? He's into Zoe. He's into the Zoe part. And Bro. Branham said, "A baby that's about to be born is jerking muscles and nerves, but it's not alive until the baby comes down and that spirit standing there, allowed of God but not of God, comes into the child." And he seemed to indicate that was like one of those better angels. Don't ask me. The indication's there but I'm not going to say much about it. But it's allowed of God.

Now the angels were not the Spirit of God, they were formulated. They're made spirits. That life then coming in, that's why he said, "Every mother no matter what she's like, at that moment has a sweet nature" I wonder how far you can go with that? Could there be in this hour that, that isn't as true as it was in Bro. Branham's day? Because you see woman today they drop their babies off in restrooms and God knows what. Yet you can't say that maybe at that hour they didn't feel something in their hearts. I don't know? I don't know? I'm just looking at this thing and wondering at the end time that maybe there's...it's got so perverted the sweet spirits diminished by this hour. You could maybe say that, I don't know. I'm just looking at things and wondering myself because things are moving in such a terrible way.

[47] He now becomes, begins to move. That's the physical.

[48] Then God took from his side a piece of him, a rib, and made the woman. Now where did he get the spirit woman? Well it tells in Genesis 1:26. "Let us make man in our image, Spirit likeness. our own likeness, created he him, male and female. He made the burly, burly spirit for the

man; He made the tender, little, delicate, feminine spirit for the woman. Then he talks about that, but I don't see any particular use in going on with it.

27 So, what we're looking at here then is what we saw this up at the very beginning. We saw how that Bro. Branham told how that God [1] begin to move Himself into a form [2] until He could come down here [5] into a form that He Himself could come into and literally abide in. In other words, this [5] would be the temple and the throne room which God Himself could inhabit and whether you're going to make it all God or a part of God, I prefer to go all God to be honest with you because I don't know that Bro. Branham--actually, said anything different but to make us look at the thought that we were all definitely...at the fact that God was in Him--all of God.

Now up here, [1a] we look at the fact that we were in God. All these dots up here. [*1a] Now, really one dot is no different from the other dot except as a matter of God wanting something from the one that He wouldn't want from the other when He got them into manifestation in Zoe. So therefore, if you were called of God to be a pastor, you're already a pastor up there. 1a] Not that you're different from the congregation. It's God choosing what He wants out of the vessel. There's only one Spirit, there's only one God, there's one lump of clay. All depends on what God wants. So therefore it's already predestinated in the mind of God. Everything is there to bring to pass what's up there. [1a] So, we see the little fellows up here[*1a] and all of these [1a] are called various things. I wrote it down here so we might as well write it down here. Now there's sons of God, I wrote that before. [End of side one]

28 They [7s] are sons of Abraham, they're sons of faith, which they are, and they're sons of His Spirit, which they are, and they're brethren, which they are, and what else are they? They're thoughts, they become Logo's that get manifested in their own degree. They're attributes, and they're seed, and they're called soul, and I guess there's other things too, but you've got a fair number right there without adding more of them. Now, he mentions attributes...let me just read something here it's kind of nice, I thought pretty, pretty well spoken of. This is on "God's is His Own Interpreter". And he said,

[9] Now all we are today is the display of His attributes.

Okay. So up in here [1a] then, all of these things here...now you say, "What's a son of God?" Attribute. [7s] "What's a son of God? Son of Abraham. What's a son of faith? What's a son of God? Son of spirit. What's a son of God?" Brethren. "What's a son of God?" A soul. "What's a son of God?" Seed. It's back and forth. They're synonymous. You're not nine, ten people there--you're one person and each appellation lets you know the measure of the grace of God in that particular area.

Now, what does he say here? We are all today, "all we are today"--that's all we are, this is it. Don't think any different. Don't make it higher, don't make it lower. All we are. What are we? "The display of His attributes." All of these all in here [7s] now, came down here. [1gt] We are the display of His thoughts, the attributes, His seed, the soul, the sons of God, Abraham's royal seed. That's a good one. There you are, display of the attributes.

29 Now we're going to cover attributes later on and we'll find the attributes are a part of the whole, predicated by the source and never the mode. In other words, intrinsically a noun. We'll look at that but not today. I haven't got time. Okay, I've got to keep reading here.

[9] And all we are today is the display of His attributes. First He was not even God, we would just call Him "the Eternal One." He wasn't God because the word in English, God, means "object of

worship" and there was nothing to worship Him. So He was the great, He was the Eternal One, the main fountain of all intelligence.

The head--the Head's here today, Spirit form. Not some goofy preacher, some big mouth. There are no big ones amongst us. "I've got a big church, see the big salary, big this." Yes, you've got it, you've got also a Porsche maybe, you've got a Mercedes Benz. Well I've got a Nissan, a lousy Japanese. Well that's okay. That doesn't make me bigger than you because my car costs \$15,000 your costs \$5,000, \$7,000. And the guy that's got a Mercedes, \$65,000, he doesn't cut any ice with me. I only paid about \$5,000 more than I should have paid for my car, that's all, it's not my fault, it's the government's fault. If I was a mechanic I would have got me a second hand one. See? What's a car anyway? Now he says,

[9] ...He's the fountain of all intelligence.

30 Here it is up here. [1] Then they elect some pope and some bishop. Phbbb...you talk about a stinking mess. You know, I can understand why God wants to vomit because even I can vomit and I'm not even involved. But you know how it is? If you look at something...my sister-in-law could not eat, you might not eat another egg again either. But she one day, she saw, an egg was broken, a little chicklet was going to hatch in it and she saw what the yolk was, the yellow part, the yolk, and that was the stomach of the chicken. And she, "yah," she went. Now you might not eat another egg. Now she got upset with those eggs but I said, "Heh, kid I'm going to tell you something Carol. I'm not eating that egg that you saw. See, I don't give a rip." That's the way you've got to get your minds to this subject, same way. God's the head of the whole thing here. [Bro. Vayle makes a pointing gesture to his right]

[9] ...The object of worship. Fountain of all intelligence.

See? Whoa that's marvelous, because everything that man ever found out was only because God had made it that way. There's all intelligence out here. Shhh, man. You know people write whole books on the wing of a butterfly? And somebody comes by and writes another book and we've come to the place now with computers, I understand now that knowledge is doubled every year by now or soon will be--couple that with Aids, ha, ha, ha, you've got a lot of smart people going to hell in a hurry. You know I can't help but laugh at it but honest--see, "man by wisdom knew not God." As old Dr. Buckman says, "You get colder by degrees."

31 Please don't call me doctor. I never earned that. Bro. Branham I think facetiously gave it or something. A lot of people called Doc, his brother's called Doc too. They called me Doc originally because I used to, tell people what their troubles were--I could tell them even doctor terms at one time. It wasn't my ministry, so God didn't let me keep it which I'm very happy.

[9] ...Now in this fountain of all intelligence there was not an atom, molecule, or anything, light nowhere, star, moon, nothing else. God, what we know as God, the great Spirit that was Eternal (never began, never will end), He was there. [1] Wonderful, that's all. And in Him attributes: His attributes to be God, then His attributes to be Father, to be Son, to be a Saviour, So He's got to manifest. [5] to be a Healer. All these attributes are in Him and now these things that have unfolded, or these truths you see about these things unfolded, since then are just His attributes being made manifest. So all the things then like, healer, saviour, all these things, that's just unfolding of God manifesting what is in Him, the attributes .[7s]

[10] What I mean, attributes [1gt] were His "thoughts."

32 Now here you're getting a little close to what could be sticky if you just don't watch because you know, you've got to have a thinker before there are thoughts. And you've got to have an attributer before there's attributes. The attributes are never the whole. Enough attributes will comprise the whole. In other words, every single child that God had in Him, [1a] don't you ever believe didn't come out--that's all He had. Now let's keep reading.

[10] What I mean, attributes were His "thoughts." And a word is a "thought expressed."

Now that's what he's talking about. That's why he uses the word attributes and thoughts interchangeably because an attribute has to manifest, otherwise what use is it. You mean to tell me that a cat would go, "whee" and a dog would go, "whoof, whoof, whoof." Well now if he's a dog out of south Africa he can't go, "Whoof, Whoof, Whoof." but he'll go whoo, whoo, whoo, he'll whine or something. He's a dog. You mean to tell me you won't drink water, and you won't eat food, and you won't sleep? Now some people can't sleep, there's something wrong with them. You can't feel? You can't help it, that's what you are. See? So we get the understanding here; what God is, He can't help either. Well, could He? There's no way God can help it. All He can do is manifest. So it's already lined up. See? Now, so your thoughts and your attributes, in the case of God, can be synonymous. Perfectly, perfectly legitimate. Let's keep reading.

[10] My main thoughts were attributes. A thought is a word expressed. An attribute is also an expression. Then what was in His thinking when He said, "Let there be light", and there was, "Let there be," that was it. So he's showing you how they're the attributes.

[11] Now remember you Christians were thoughts before there was a world. That's perfectly true. And you are the manifestation [1gt] of His thinking.

33 Now, because you were His thoughts you were attributes [1a] but the reprobate out there wasn't. He was also in the thinking. See? So when you get thoughts and attributes you are working very close in a pattern the human mind cannot take unless it goes to a realm of reasoning that is spiritual and reasoning realm of the spiritual is faith because you can't figure it but you can see it by faith. Now a smart guy will come along and argue with you. Don't argue--it ain't worth it. Say, "Well you're not a thought of God I can tell you right now, so you're not an attribute so you weren't in His thinking." "I was in His thinking. I'm an attribute. Here I am Lord." You know? You're not smart about it, you're just taking your stand. Bless God, why shouldn't you?

[11] Now remember you Christians were His thoughts [1gt] before there was a world. That's what he's talking about now because they're attributes, [7a] the same thing. And you are the manifestation of His thinking. That's exactly true. Before there was even a world, [1] you were in Christ, [2] (amen) in God in the beginning. That makes you, then, you see, His subjects. [7s] And the whole thing is God, Himself, materializing [5] Himself tangible, so He could be handled, and seen, and so forth. And that's what God is, is the whole thing. You like that? I like that.

34 Now, Bro. Branham does not make God universal mind but he shows what was in God as pertaining to His mind--knowledge and wisdom--had to manifest and the thoughts were living thoughts. And so therefore a source and therefore God had to manifest those thoughts the same as His attributes. But God's not universal mind. Now you see you were His thoughts, synonym, put the synonym there, not in contradistinction to, but the same attributes. Now God's got to manifest that. There's no way He can't. See? So therefore we are the attributes [7s] and the thoughts of God manifested. Now I know the human mind does not want to accept that on the grounds of the factor of sin within the human body but now you've got to listen to Bro. Branham take that subject up. Now that was the thought there, I saw that in attributes.

Now, let me see something in here. All right. What we have talked about here and read from Bro. Branham...how's my time? Did I miss it? Doesn't matter, okay we got it anyway, we've got two tapes. Okay, what we've got here from Bro. Branham is actually John seventeen that I just quoted--partially. What I did I mentioned in John.

(21) That they all may be one; as thou, Father, art in me, and I in thee, that they also may be one in us: that the world may believe that thou hast sent me.

35 Now personally, I don't understand that last part about...[problem with microphone] let me get this back...that last part personally about the fact of him saying here, "That the world may believe that thou hast sent me." That may be somewhere way down the road, it may be something right here at this moment. I don't know.

But I know the fact that he said, and therefore cannot be wrong, pertains to us now, "That they all may be one as thou Father art in me, and I in thee, that they also may be one in us:" Now they were at one time and it's a matter of getting back there and the getting back has been accomplished through the shed blood which allows the Holy Ghost to fall upon us and reunite us to God in the form that we are in with the promise of immortality. Going back to the same righteousness and the righteous sphere that is in God. So if you can understand the righteous sphere that is in God, and you can understand it through Jesus Christ, and you really understand what's being said, then you can see that you and I are going back, not just potentially--which we have now--being the righteousness of God but entirely the righteousness of God in the whole Cosmos of God.

Now man, just think of that! You can't think of it. All you can do is say, "Thank God." And the more that you let your thinking go and try to realize this and do realize this, the more you will position yourself with beautiful Jerusalem. Not the one on earth--forget it. That's Hagar. Pbbss, who needs it? And if you think it isn't who's over there now but Hagar? Out of the millions, Palestinians and Jews there will be a 144,000--no more and no less, proving what I said awhile ago, only so many sons. [1a] And God had a plan for every one even the little tiny baby that dies, going to go up in a Rapture. You say, "Why would God do it?" Because it shows something of his infinite grace that lies within the attributes because within the attributes there are graces.

36 Well we've just got to go on. Let's look at this again.

(22) And the glory which thou gavest me I have given them; (See? We bypassed that, [4] we weren't in Him for that, that purpose.) that they may be one, even as we are one:

(23) I in them, and thou in me, that they may be made perfect in us; that the world may know that thou hast sent me, and hast loved them, as thou hast loved me.

Now there's a promise you know, in the church ages where He said, "I'll make them know whom I have loved." Perhaps this could be White Throne, brother/sister. But it's going to be. You bet, because the whole world's going to be there. There won't be one person that's going to miss it. And we're going to know, there's going to be a Bride there.

37 You know, if we could only let this sink in, how Godly we would live. If any generation needed its mind renewed, the mind circumcised, this is that generation because this generation needs to repent, repent, repent. Don't get little feelings about it. That's why I said, If you ever get up in this church and start saying, "Well now," Mel may say, "Well you know I want to testify I got mad at Dave

today because we work close together and Dave didn't have his machine right and I got mad and ready to poke him in the nose." Listen, shut up and tell Dave that. You tell that here Mel, we'd throw you out the door. You'd have to throw yourself out because you're a deacon. Say, "Mel, throw yourself out the door and Dave help him." We don't go for that nonsense. No, no, no. That kind of stuff is ridiculous.

Confess--you got faults confess them to each other. Don't by your stupid feelings and things, go by the Word of God. Say what God has said. Here's Jesus saying right here. We need that. Amen. I need it. I'm not talking down at you, I'm illustrating. You know how it is? Maybe Steve get mad at Norm, who knows? I'm just using a little illustration here. Ann get mad--ever get mad at your big sister? Ha, ha, ha. I can understand why, that girl is so capable. Everybody says, "That Emma, man, she's a capable lovely girl." The rest of you are too, but, that Emma, she's really something. We've got lovely people here. I really appreciate the lovely people here, the good spirit, the grace of God, so don't you go blowing off at me now or I'll come after you with a four by four. Make me a liar, I can't stand that. I'm bad enough by myself without...anyway.

38 So all right. Now, from what we have discussed here, this will likely close us off. From this what we see, the roles--we see roles of dominant and sub-dominant, in the program of God as pertaining to sons--is what it's really all about and what a gracious Father would do for sons, and by sons, and so on. So we see the dominant role is this one up here. [2] Jesus the Logos coming down to here. [5] The sub-dominant are all here [1gt] and that goes for men like Moses. Men like Paul, Isaiah, Abel, Noah, Elijah, William Branham, great men. See? So there's a dominant sub-dominant role.

We as sub-dominants accept with joy the grace given to us, but we must never lose sight of the fact that we were and are sons. The sub-dominant role never allows you to forget that you're sons. If you forget you always were, and are a son, and will ever be a son, then you are not even in the sub-dominant. You're lying to God. You're saying, "Lord, you vindicated the prophet William Branham but he's just full of baloney " Then you're just a big old buzz fly floating around the baloney. How do you like that? He's giving us Tree of life and as anxious sons of God as Adam, who knew who he was, anxious to get back, scramble for the Tree of Life, that's been exposed for the first time in six thousand years to give us immortality. Listen brother, that's something.

39 We are not dogs, or goats, or chickens. Jesus never came for dogs, and goats, and chickens, and chimpanzees--though they be the missing link so to speak. He never came to redeem the serpent. He came to ransom His brothers, God's own sons.

Let's think of something else. With this all, there is a great mystery. This question as to how we were in Christ [2] and yet got down here [6] by some natural election, predestination. I would suggest we set the mystery of it aside and believe the truth. We were all in God and we're still in God, though somehow we went astray, we are now all back as the redeemed of God. So what's the difference. You ever lose anything then find it? Oh boy, the old heart constricted. You feel so bad and you know, you feel all bad inside especially, you know, if you're a little kid and you lost something of your parents. And then you found it. "Ah! Heaven done come down to earth. Thank you Lord." Well that's what we're talking about here. What if you were lost? And you were lost. That doesn't make you a chicken. I'm going to tell you something, chickens moult. They are the most horrible looking sights. Eagles moult too.

40 There's a clean eagle in the east and there's a dirty eagle. He's a vulture over here. They use two terms eagle for everything--clean and dirty they call them. The clean eagle is in India by the

way. And over there in India he gets way up in the air and when he gets old and his eye sight begins to go, they tell me he goes to a certain tree and he rubs his eyes back and forth until it just rips all the outside off and everything else. Then he gets way up in the air and he hits the water like a torpedo and his feathers just go every way. Then he climbs out of the water and he's almost at the mercy of every single thing in the world as he walks up and down until he gets his feathers. That's a lot like the Christian but he always was an eagle. Don't worry, he'll get his feathers back, the real feathers he lost, get new ones. He'll get right back where he's suppose to be. See?

Somehow what we lack in understanding, and cannot be explained, is truth and it can be believed because it's vindicated. Now that's what we're looking at here. We're looking at this message and what Bro. Branham said, applying other quotes to it and showing you what is the truth and you don't have to understand it, and I don't have to understand it. We just believe it. But I've got news, we'll understand more as time goes on. And we don't try to push it and try to figure it. We just know that this, in this message Bro. Branham preached, he wanted to get that across to us.

41 Now, what time? Any time? Huh? Twenty minutes. Well I'll read what we read last week then we'll start over again. This is great I retrogressed. Bro. Branham's sermons are marvellous. I go home and I say, "Well I missed this point, I better go over it." Forget it. It's just like the Bible. It says here,

[69] ...You can't be the Word unless you're a thought. In other words, you cannot be what we're talking about here and in this sermon, you're not a part, you're not in it, unless you were back there. [1a] See? You had to be in His thinking first.

You were. You know why? Because look it, ain't nothing but God, [1] nothing but God. So what's He going to do? He's going to work with God so everything in here, [1] thinking, attributes, everything, God, and He's simply going to do something about bringing out God. You say, "My Lord, you mean to tell me us poor eagles down here, [1gt] sort of clipped wings, too many toe nails or something. You mean to tell me that that's come out of there?" [1a] You bet I'm telling you right now.

42 Now there's where repentance comes in--renewing your mind. Not some silly feeling but I did somebody dirt, or somebody did me dirt and I got mad and he got mad. Fap. That's just little child play, that's junk. Get this lined up, we won't have this junk down here. Get the truth--listen, the truth will take care of the vessel. That's the trouble, the vessels try to take care of the truth. Forget it! Shut up and sit down. Stitch your mouth up and listen and put joy instead of fear in the heart. I'm not telling you, I'm telling all of us. That's the attitude, that's the spirit. This [1a] is what's truth--it's all of God.

Say, "Well that man." Forget the outward manifestation. This is nothing but a bypass, a little day that you won't even remember. When God, God manifested New Jerusalem and every child. Oh man, I tell you what. Back in the old days of Pentecost you'd be cutting a rug and screaming and climbing a wall by now. Can't even get hardly a smile out of people. I've taught you not to. I'm not blaming you now for what I've taught you. I'm glad you just listen because when your emotions creep in unwarranted, there's problems. We don't want unwarranted feelings and things. We want genuine spiritual uplift where the mind becomes suffused, every channel of the heart, until God's Word so enlivened by the grace that's extended today will take these vessels and transform them what I'm talking about. Then stand there as a son of God in his glory.

43 Brother/sister listen, this is what the Bible is about and it's right upon us today. It's right here today in our midst. That's the thing that drives me buggy but I'm going to tell you, God's in charge and I just say with Bro. Branham quietly, "If we're not Bride, there's a Bride out there somewhere and by the grace of God help us so we won't stand in her way but will applaud her on to the end." See?

[69] ...You had to be in His thinking. [1] But you see, in order to be tempted, to take the trials of temptation, you had to bypass the theophany; [4] the form [2] Jesus had. You couldn't have it. You had to come down here in flesh...[6]

That was your En morphe. You and I have never yet been the true person that we really are. There's not one here that's born again the child of God regrets every bad word, every bad thought, anything ever done or might be done--you even hate yourself. Like being a carcass. You haven't had a chance yet brother/sister. "Eye hasn't seen, ear heard." You've got to have faith for this.

[69] ...In flesh to be to tempted by sin. And then if you sin... what?

44 We have an advocate with the Father. Every single one that falls into sin, and you can't help it, you were tricked, you were born in it, you were sold into sin. Every one of those bunch down there, [6] I don't care who they are, the biggest hoodlum can be saved, I don't care what he is, God is going to raise up every single child of His through Jesus Christ the Lord. See? But listen, he said.

[69] ...First you had to come right down the line, regular line, from attribute.. [1a] .the thought to the flesh, [6] see?

[70] And then he said, Before the foundation of the world Jesus had His name put on the book of Life. It's called the Lamb's book of Life. [7] He's the owner of it through God. Then He became the Word, [2] the theophany, could disappear and appear; [3] and then come back again. Then He came down into flesh, [5] human flesh, and He died and He rose again, in the glorified condition He came back. But you had to bypass the theophany [4] and you became a flesh-man [6] tempted by sin. But listen, there's a Word for you. When you get out of here it's waiting for you.

45 Now, for the first time you can see yourselves as you are. The ninety-one year old lady up there hugged Bro. Branham, "My beloved brother."

The man said, "You don't recognize her do you?"

"No, who is she?"

"She was ninety-one years old when she got saved in your meeting."

Every woman a masterpiece of sheer beauty. Every man a masterpiece of sheer beauty in the glory of God and just in a figure that can appear and disappear. My, just wait until you get in the figure that God wanted you--glorified flesh combined with that up there. He said, "There wasn't a ripple of any sensation when they hugged him." You try that now. There's pure respect and love. I believe there's such a thing as touching with a way that is congenial but it's dangerous.

46 Women today? How hard for women, they have a hard role. Men criticize and they're rough on them because of the fall. They've got a nature that they don't even understand. The way they dress many times. I saw a girl the other day walking down town, she looked like she had beautiful...she

was a nice looking girl, nice clothes and everything else. But then as she walked by I notice that her skirt was just about up to the middle of her backbone. Now, there's such a thing as a kick pleat. There's such a thing as necessary pleats and women need splits in their skirts. I saw a girl with a black man one day--nothing against a black man. I felt sorry for him that he picked up such a cheap hunk of white trash and she had her split right up almost to her umbilicus in the front. She's showing you she was a prostitute.

Why would woman do that? Watch what Bro. Branham said about that nature. Why? We're going to read it here. Why would a woman do it? She doesn't understand. That's where Godly husbands are so necessary. I've talked to my wife every now and then. She can bug me and she's a very modest person, a very fine person. I notice every now and then there's heels get a little bit too high. What is it? You woman don't want that any more than God wants it. What is this thing? See? We don't really understand what lies behind it all. And the baptism of the Holy Ghost, the revealed Word of God can do these wonderful things for us to get us out of here. But you see, we're trapped into this sin but one day we're going to get out. Now he said...then he said here.

[70] ...But look, when this body receives the Spirit of God, the Immortal Life inside of you,

47 Now just a minute. It gets the Spirit of God to bring immortal Life but I've already got the Spirit of God, I've got an Eternal Life. It's this flesh with its senses and everything else that messes us up. But now the Holy Ghost coming in will let me...these bodies down here, [6] once it touches these atoms I'm a candidate, can't help it. It's got to respond to the resurrection. See?

[70] ...Immortal Life inside of you, and this will throw the body into subjection.

In other words, it's the one hope we've got that these bodies will respond to the nature of God as they should. Will defy the things out here that aren't nice. Will take the proper view of how the body should go. We won't find the chore, He Himself said, "Take my yoke upon you, learn of Me. My yoke is easy, My burden is light, it will give peace to your souls." There is a place brother/sister even right here on this earth at this time where we can have a life which is dedicated and though thoroughly, not thoroughly manifesting God, will to a degree manifest the Lord and be pleasing unto our Father.

We're going to read more. I stopped at this place here, now we can start on that on Saturday night when we come into the foot washing and communion service of next weekend. So the Lord Bless you. I hope we're getting this under wraps until next time we look at it some more and we'll try to go from there. So all right, shall we just rise at this time?

48 Gracious Heavenly Father, we want to just thank You again for Your kindness to us. You gave us a good time here studying Your Word Lord and I pray that You'll help us in our lives, in our endeavours O God, to be as we should be in all humility and kindness, and goodness, and grace Lord because of the Holy Spirit within us teaching us and leading us. Lord God in Heaven. If we think as Bro. Branham said so truthfully, and we know it's true, that man in that spirit form was given dominion over the beasts of the field, the cattle, all of these things he had dominion over, the fish of the sea, birds of the air, he could say, "Come here, go there, fish in the water, birds in the air, animals here and animals there", even tell a tree to move. I suppose that was there too because it would be again. Everything in the perfect symmetry of God. And Lord, if a man could do that by the Holy Spirit, we know that there is more than hope for us, that we can be lead of Your Spirit to walk uprightly as we ought to in all things. And Lord where we're failing, I know that You've given us power to overcome. I realize that.

Now Father, I'm confessing that is Your truth because it is Your truth. But Lord, I must also confess as it's only too well known by everybody in this building, and above all You Yourself, that I do not stay in that happy position of obedience to the Holy Spirit at all times what so ever because many times, Lord, I put my word which is my will against Your Word which is Your will and Lord in Heaven I don't want that. I would like Lord like everybody else in the building wants to get a real victory to the place where we saw Bro. Branham come. I know Lord I will not go to that place but come to where he came, but Father I know in the place where You have put me I can come to the full measure of what You want out of me. That much I do know. Help me and help each one in this building Lord to realize that and by the grace of God to come to it that each one of us Lord, recognize and know that we are sons of God.

Unfortunately, and yet not unfortunately because of Your great integrity, and we trusted it, we bypassed where Jesus bypassed down here to suffer and be tempted. But then He came down and bore a whole lot more than we did. So help us Lord to line with Him and take up our crosses daily and allow You to nourish us up with the strength we have need of to walk in the Light, to have fellowship one with another, the blood of Jesus Christ cleansing us, and in no way Lord to be censorious or judgmental but in every Lord to be helpful, and loving, and kind, yet firm in the faith which is delivered unto us in the name of Jesus Christ I pray Lord, and I mean it. Help us O God! Amen.

'Take the name of Jesus with you.'
